

Recycle Rap

Listen up, friends, you've got to help with our plan.

Or we could all be livin' in a garbage can.

Just save your glass and your tin cans,

Aluminum, too.

Recycling is the thing to do.

refrain

Recycle, recycle, recycle now!

There's nothing to it, if you just know how.

So tell your brother and your sister

and your teacher too,

Recycling is the thing to do.

Gather up your papers.

Don't throw 'em away!

Your plastic bottles could be used again someday.

Think about your habits,

try to change your point of view.

Recycling is the thing to do.

Refrain

R-R-R-Recycle, recycle, recycle now!

There's nothin' to it if you just know how.

So tell your uncles and your cousins

And your grandma, too:

Recycling is the thing to do!
